

in the everyday walks of life and tell me in terms the average person can understand.

A I would prefer to keep this interview up among the stars!

Q No doubt you would. That would save you from being exposed. But let us come back to earth. Tell me now what drifting is doing to us as a nation here in the United States.

A Frankly, I may as well tell you that I hate the United States as only the Devil can hate.

Q That is interesting. What is the cause of this hatred?

A The cause was born on July 4, 1776, when fifty-six men signed a document which destroyed my chances of controlling the nation. You know that document as the Declaration of Independence. Had it not been for the influence of that damnable document, I would now have a dictator running the country and I would stop this right to free speech and independent thought that is threatening my rule on earth.

Q Am I to understand from what you say that nations controlled by self-appointed dictators belong in your camp?

A There are no self-appointed dictators. I appoint them all. Moreover, I manipulate them and direct them in their work. Nations run by my dictators know what they want and take it by force. Look what I have done through Mussolini in Italy! Look what I am doing through Hitler in Germany. Look what I am doing through Stalin in Russia. My dictators run those nations for me because the people have been subdued through the habit of drifting. My dictators do no drifting. That is why they rule for me the millions of people under their control.
