

There was no longer any doubt in my mind that my physical body was in charge of an influence far different from the one which had been dethroned two nights before, as I walked around that school house in West Virginia.

Here, in editing the manuscript, I have ended the chapter at one of the great turning points in the author's life. Have you ever undergone a life change such as the one Hill describes above? It can also be described, in religious terms, as a conversion experience. Others may simply refer to it as "a wake-up call" or "a tap on the shoulder" or more vehemently as "a slap in the face!"
