

*Q* Where did you acquire your power, and by what means do you add to it?

*A* I add to my power by appropriating the mind-power of the earthbound, as they come through the gate at the time of death. Ninety-eight out of every 100 who come back to my plane from the earth plane are taken over by me and their mind-power is added to my being. I get all who come over with any form of fear. You see I am constantly at work, preparing the minds of people before death, so I can appropriate them when they come back to my plane.

*Q* Will you tell me how you go about your job of preparing human minds so you can control them?

*A* I have countless ways of gaining control of human minds while they are still on the earth plane. My greatest weapon is poverty. I deliberately discourage people from accumulating material wealth because poverty discourages men from thinking and makes them easy prey for me. My next best friend is ill health. An unhealthy body discourages thinking. Then I have countless thousands of workers on earth who aid me in gaining control of human minds. I have these agents placed in every calling. They represent every race and creed, every religion.

*Q* Who are your greatest enemies on earth, Your Majesty?

*A* All who inspire people to think and act on their own initiative are my enemies. Such men as Socrates, Confucius, Voltaire, Emerson, Thomas Paine, and Abraham Lincoln. And you are not doing me any good either.

*Q* Is it true that you use men who have great wealth?
